Web developer

Specialties:
- Programmer, developer
Employment: full-time
Work schedule: full day, remote work

Experience - 15 years

December 2020 - present 4 years 1 month

Individual entrepreneurship / private practice / freelancing

Web developer

Creating websites and web services, fullstack development. Worked both alone and in a team with developers and designers. In total more than 50 projects were realized, most of which were commercial. During the whole time I most often used React, Laravel and REST API technologies. The largest project was digital educational content for secondary education,
which was presented in a federal project of the Ministry of Education of the Russian Federation "Professionalism ". Portfolio can be viewed here https://vk.cc/csKoDT

January 2010 -. December 2020 11 years old

Individual entrepreneurship / private practice / freelancing

Cheboksary

System administrator

Installation, configuration of software and local networks, diagnostics and troubleshooting of computer hardware. The activity was carried out as a part-time job. During this time I learned Windows and Linux Ubuntu, and
also a large amount of application software. During this period I first became interested in programming, studied QBasic, Pascal, Delphi, web technologies.

About

I am a very inquisitive person, always open to everything new and interesting. I never stop learning, because only it's how I feel I'm living. I am an introvert by my inner structure, but I am always happy to meet people and do not mind socializing
